## Expect more.

Fun. Freedom. Responsiveness. In the 2016 Ford Focus, you'll experience all this. And more. Like smart technologies that enhance comfort, convenience and performance behind the wheel.

**With a sophisticated appearance,** Focus hatchback and sedan share a stylish front end with sculpted hood and confident grille, and equally impressive unique rear taillamps. To add a personal touch, opt for the Luxury Package or the Sport Package – both available on SE.

**A clean, modern look** defines the smart, easy-to-use interior. You'll notice the metallic-finish detailing,<sup>1</sup> the handsome seat trims and switches, the convenient center stack, and the center console with adjustable cupholders.

**Driver-assist features<sup>2</sup>** on Focus begin with a standard rear view camera on all models. On Titanium, Focus can alert you to traffic in your blind spots,<sup>2</sup> help you maintain your lane,<sup>2,3</sup> and even assist in parallel parking.<sup>2</sup> Start expecting more from every drive in the 2016 Focus.

## Experience ingenuity.

1.0 liter of displacement. 3 cylinders. 215 pounds. From these specs, the 1.0L EcoBoost® engine<sup>1</sup> offers cutting-edge engineering.

**With 125 lb.-ft. of torque**, the 1.0L EcoBoost is teamed with a 6-speed manual transmission for 123 horsepower of maximum driving fun. Or you can choose an available 6-speed SelectShift® automatic. This award-winning performer has been named the best engine under 1.0L, according to *Engine Technology International*.<sup>2</sup> It combines direct injection, turbocharging and twin independent variable camshaft timing (Ti-VCT) to generate a broad, flat torque curve. And provide you with an impressive combination of driveability and fuel efficiency (an EPA-estimated 42 hwy mpg with the manual transmission).<sup>3</sup>

**Delivering 160 horsepower**, the 2.0L I-4 engine utilizes direct injection and Ti-VCT for efficient performance. On Titanium, a standard PowerShift 6-speed automatic with SelectShift capability allows gear changes at the touch of a button, delivering torque to the drive wheels 100% of the time during shifts for quick response.

**Focus finds the sweet spot** on straightaways and in corners. Credit its responsiveness, especially in the turns, to an independent rear suspension and Torque Vectoring Control, which help make Focus as ready as you are to make things happen.<sup>4</sup>

Actual mileage will vary. <sup>4</sup>Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

<sup>1</sup>Available feature. Driving while distracted can result in loss of vehicle control. Only use SYNC/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. <sup>2</sup>Available feature. SYNC AppLink is available on select models and compatible with select smartphone platforms. Commands may vary by phone and AppLink software. <sup>3</sup>The vehicle's electrical system (including the battery), the wireless service provider's signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC, and the 911 Assist feature enabled, in order for 911 to be dialed. When the feature is ON, 911 Assist uses your paired and connected mobile phone to assist occupants to contact emergency services by dialing 911 if your airbag deploys or, on certain vehicles, if the emergency fuel pump shut-off is activated. Aftermarket on-board diagnostic devices may interfere with various vehicle systems including Vehicle Health Report and 911 Assist. To avoid interference, remove the device or contact the device maker for more information on compatibility. <sup>4</sup>Available feature. <sup>5</sup>You must have a Bluetooth-enabled phone paired to your SYNC system. <sup>6</sup>Optional Navigation System map updates cannot be received via Wi-Fi and require a separate update.

## Take the streets by storm.

Step on the aluminum accelerator pedal of the 2016 Focus ST and engage the exhilarating intensity of its 252-hp,<sup>1</sup> high-output 2.0L EcoBoost® engine mated to a 6-speed manual transmission. To further heighten your ST experience, engineers channeled the lower-engine frequencies of its signature EcoBoost sound into the equally exhilarating cabin.

**Enhance already wicked performance** with an “overboost” feature that extends peak torque for up to 15 seconds at a time (from 3,000 to 4,500 rpm).

**Other ST performance essentials** include disc brakes with high-performance brake pads at all 4 wheels, all-season tires,<sup>2</sup> 18" machined aluminum wheels with red-painted brake calipers,<sup>2</sup> a unique sport suspension, and dramatic bright-tipped center-exit exhaust.

## Let Focus assist you.

Smart driver-assist technologies<sup>1</sup> on the 2016 Focus use ultrasonic sensors and sophisticated radar to help you monitor blind spots, parallel park and so much more.

**Maintain your lane** with help from our Lane-Keeping System.<sup>2</sup> It can detect lane markings with a forward-facing camera, and send vibration pulses to the steering wheel and apply steering torque if needed, assisting you to steer back into your lane.

**Make parallel parking easier** with class-exclusive<sup>3</sup> active park assist.<sup>1</sup> This system not only helps you find a spot, it actually steers the vehicle into place while you control the gear shifter, and brake and accelerator pedals.

**Stay alert to traffic detected in blind spots** thanks to BLIS<sup>®</sup> (Blind Spot Information System) with cross-traffic alert.<sup>1</sup> It helps warn you using lights embedded in the sideview mirrors<sup>4</sup> and a notice in the message center.

**To improve your visibility** while slowly backing up, a rear view camera is standard on all 2016 Focus models. A Reverse Sensing System<sup>1</sup> provides audible assistance as well.

## Drive safely.

---

Over half of the 2016 Focus body structure is made from high-strength and ultra-high-strength steel, with critical occupant safety zones reinforced with lightweight yet incredibly strong boron steel.

**Strength surrounds you** in the form of a rigid safety cage. SPACE (Side Protection And Cabin Enhancement) Architecture and the Trinity front-crash structure help divert crash forces away from occupants. Next, 7 standard airbags include: driver and front-passenger front; driver's knee; front-seat side; and side curtains that deploy to cover both rows of the vehicle in certain side-impact collisions.

**To avoid skidding and fishtailing** in inclement weather, AdvanceTrac<sup>®</sup> electronic stability control<sup>1</sup> automatically helps keep all 4 wheels firmly planted. To help ensure your tires are properly inflated, the Tire Pressure Monitoring System (TPMS) alerts you when any tire's pressure is low, giving you time to get assistance if needed.
